Impact 2017/18

- All teachers have increased knowledge of the PE curriculum and how to effectively deliver this based upon the team-teaching style training with Sophie Pyne (ActivFusion sport specialist). High quality PE lessons now being delivered every week.
- Increased participation in after school clubs which has resulted in an increase in the number of competitions entered and also the success for the school. Historically we have never finished mid-table in anything and this year we have had success at tennis where we made it to the semi-final and rounders with year 2 finishing 5th. We also finished mid-table at gymnastics.
- Children now have a sense of pride and want to participate in PE as they have their own kit and their home life no longer influences their ability to safely complete PE lessons. Participation has increased and we rarely have children sitting out.
- Trainers to allow all children to participate in indoor/outdoor PE safely. As above children don't feel they have to make excuses, they can enjoy PE with the same equipment as peers.
- Equipment has allowed us to enter new competitions to engage more pupils who have previously not been interested in sport. It has also allowed us to offer more of a range of activities which has again helped to engage all learners.
